

NAP Version 1.3.12 Release Notes

This is a synopsis of the new and corrected functionality included in NAP version 1.3.12. The primary objective for this release is to upgrade NAP reports to use Cognos 11 and to update the existing standard reports to function against the SQL Server database.

Installation

No user action is required.

New or Changed Functionality

- None.

Reports Changes

- The NAP reporting system has been upgraded to Cognos 11 and the NAP standard reports have been migrated to Cognos 11 and updated to work against the SQL Server database.
- The Reports button on the NAP user interface now launches the Cognos login page.

Defects Fixed in this Version

- Email sent to vendors includes text about delegate management only if the vendor was added using the vendor onboarding functionality.

Additional Changes

- None.
