

NAP Version 1.3.6 Release Notes

This is a synopsis of the new and corrected functionality included in NAP version 1.3.6. The primary objective for this release is to improve the process for on-boarding of vendors.

Installation

No user action is required.

New or Changed Functionality

- Account setup for vendors has been made more efficient, including the ability for vendors to create and maintain their own delegate accounts. Vendors will now be assigned access to Web Status (instead of ROSS).
- The password for a standard account will not expire until after 90 days (increased from the current value of 60 days).

Reports Changes

- None

Additional Change Requests and Defects Fixed in this Version

- None.
