

# BASIC UNIT 5 SCENARIO (A)

## NEW REQUEST

Before beginning this scenario, verify that the clock on your computer is set to the time and time zone of your scenario Dispatch Office. Also go to the Incident List screen, highlight the Creek and Sage Incidents, and click **Add to Most Recent**.

### *New Request screen.*

1. Create requests for a **Field Observer (FOBS)**, a **Type 4 Engine**, and **2 Firefighters (FFT2)**. All are needed at the Creek Incident by 1800 today. Select an appropriate **Request Contact**.
2. The Sage Incident has just phoned you with new requests to be delivered to the Tanker Base:
  - 1 **Airtanker, Type 1** needed at 1800 today.
  - 1 **Helicopter, Type 1 Limited**, with a **Service Truck** (use the **Select Features** box), needed today at 1800.
  - 1 **Helicopter Manager, Single Resource (HMGB)** needed tomorrow at 1200.

Additional Sage Incident requests need to be delivered to Valley View Campground by 1200 tomorrow:

- 1 **Type 2 Crew**.
- 1 **Type 4 Engine**.
- 3 **Type 6 Engines**.
- 1 **Personnel Time Recorder (PTRC)**.
- 2 **Faller Class C (FALC)**.
- 6 **Firefighters (FFT2)**.
- Name Request 1 **Support Dispatcher (EDSD)**. **Rick Heinz** is the name to request. Type in the Home Dispatch Unit because there are several dispatchers with the name Rick Heinz. Also mark the request as **Trainee Acceptable**.

Create these Requests.

3. Change the **Deliver To** for the two **FALCs** (**Action** button, **Edit Request**). They now need to report to the **Incident**.

4. Financial Codes may be assigned to individual requests. Change the **Financial Code** for the **HMGB** on the Sage Incident to **B3S6** (**Action** button, **Edit Request**).
  
5. The **Type 2 Crew** will need to have **20 sack lunches (3 vegetarian)** ready for them at the incident by tomorrow at 1200. Create a **Support Request** for the lunches (Supply; Service – Meals/Food – Lodging; Service – Meals). Use **Reporting Instructions** to add that the lunches should be delivered to **John Eatwell** at **ICP**.
  
6. After the first shift, the Sage ordering manager calls in with new requests for resources needed tomorrow at 0800 to be delivered to the Sage Incident. Create these new requests.
  - 1 new **Air to Ground AM – Flight Following Frequency** (Aircraft; Frequency; Air to Ground AM – Flight Following).
  - 1 **Type 5 Engine**, with the **Feature** of **All Wheel Drive**.
  - 1 **Field Observer** (FOBS).
  - 1 **Supervisory Dispatcher** (EDSP).
  - 1 **Engine Boss** (ENGB).
  
  - 2 **Porta Potties**. Deliver these to the Valley View Campground. (Supply; Service – Sanitation; Service – Porta Potties/Service.)

In the Block field use the [1-25] (UI) Porta Potties Only option.

Quantity is **2**.

Enter Request # is **1**.

7. Use the **Place Request Up** feature to place up the **Air to Ground AM – Flight Following Frequency** (**Action** button).

Mnemonics used in this scenario:

ENGB: Engine Boss  
EDSD: Support Dispatcher  
EDSP: Supervisory Dispatcher  
FALC: Faller Class C
