

BASIC UNIT 5 SCENARIO (B)

NEW REQUEST

Before beginning this scenario, verify that your PC's clock is set to the time and time zone of your scenario Dispatch Office. Also go to the Incident List screen, highlight the **Creek** and **Juniper** Incidents, and click **Add to Most Recent**.

New Request screen.

1. Create requests for a **Field Observer (FOBS)**, a **Type 4 Engine**, and **2 Firefighters (FFT2)**. All are needed at the **Creek** Incident by 1800 today. Select an appropriate **Request Contact**.
2. The **Juniper** Incident has just phoned you with new requests to be **delivered** to the **Tanker Base**:
 - 1 **Airtanker, Type 2** needed today at 1800.
 - 1 **Helicopter, Type 3 Standard** with **Bucket** and **Service Truck** (use the **Select Features** box), needed at 1800 today.
 - 1 **Helicopter Manager, Single Resource (HMGB)** needed tomorrow at 1200.

Additional **Juniper** Incident requests need to be **delivered** to **Valley View Campground** by 1200 tomorrow:

- 1 **Type 1 Crew**.
- 1 **Type 4 Engine**.
- 3 **Type 3 Engines**.
- 1 **Equipment Time Recorder (EQTR)**.
- 2 **Faller Class C (FALC)**.
- 6 **Firefighters (FFT2)**.
- Name Request 1 **Support Dispatcher (EDSD)**. **Sandy Davis** is the name to request. Type in the Home Dispatch Unit because there are several dispatchers with the name Sandy Davis. Also mark the request as **Trainee Acceptable**.

Create these Requests.

3. Change the **Deliver To** for the two **FALCs** (**Action** button, **Edit Request**). They need to report to the **Incident**.

4. Financial Codes may be assigned to individual requests. Change the **Financial Code** for the **HMGB** on the ***Juniper*** Incident to **B3S6** (**Action** button, **Edit Request**).
5. The **Type 1 Crew** will need to have **20 sack lunches (3 vegetarian)** ready for them at the incident by tomorrow at 1200. Create a **Support Request** for the lunches (Supply; Service – Meals/Food – Lodging; Service – Meals). Use **Reporting Instructions** to add that lunches should be delivered to **John Eatwell** at **ICP**.
6. After the first shift, the ***Juniper*** IC calls in with new requests for resources needed tomorrow at 0800 to be delivered to the ***Juniper*** Incident. Create these new requests.

- 1 new **Air to Ground AM – Flight Following Frequency**.
- 1 **Type 5 Engine**, with the **Feature of All Wheel Drive**.
- 1 **Field Observer (FOBS)**.
- 1 **Supervisory Dispatcher (EDSP)**.
- 1 **Engine Boss (ENGB)**.

- 2 **Porta Potties**. ***Deliver*** these to the ***Valley View Campground***. (Supply; Service – Sanitation; Service – Porta Potties/Service.)

In the Block field use the [1-25] (UI) Porta Potties Only option.

Quantity is **2**.

Enter Request # is **1**.

7. Use the Place Request Up feature to place up the **Air to Ground AM – Flight Following Frequency**.

Mnemonics used in this scenario:

ENGB: Engine Boss
EDSD: Support Dispatcher
EDSP: Supervisory Dispatcher
EQTR: Equipment Time Recorder
FALC: Faller Class C
FFT2: Firefighter, Type 2
