1. IQCS/CAD/ICBS to ROSS INTERFACES - UNAVAILABILITY TIMEFRAME
IQCS to ROSS interface will be unavailable beginning the evening of 12/11 at 1700 until sometime on 12/15 as the IQCS server is being moved. CAD and ICBS Interfaces will be unavailable from approximately 0600 to 0900 mountain on 12/12 for a recycle of the integration servers. A message will be posted once IQCS is available. [Posted 12/10/2008 at 1045M]

2. URGENT - INCIDENTS NEED TO BE CLOSED
It is critical that offices close all 2008 (and prior year) incidents if there are no resources on the incident as the archive will occur on 1/29. If there are no
resources on an incident but you want it in 2009, please close it and then create a new incident after 1/1/09. Please contact the Helpdesk (866-224-7677) if you have questions. [Posted 12/8/2008 at 1332M]

3. IQCS to ROSS INTERFACE
The IQCS to ROSS interface will be unavailable beginning the evening of 12/10 until sometime on 12/15 as the IQCS server is being moved. A message will be posted once it is available. [Posted at 12/8/2008 at 1418M]

4. REPORTS AND PRINTING ISSUE
Please print all the requests from a large incident during off hours to avoid impacting other users. [Posted 9/26/2008 at 1450M]

5. BLM AUTHORIZED USE OF THUNDERBIRD FOR DMS USE IN DISPATCH OFFICES AND INCIDENTS
THIS IS ONLY FOR USE IN DISPATCH OFFICES on the BLM network OR FOR DISCONNECTED FIRE CLIENTS: Thunderbird is for use only with the DMS application and all other BLM email must use Lotus Notes. It is not acceptable to use Thunderbird in lieu of Lotus Notes or configured as a standard BLM email client. Administrator privileges are required for installation. The Release Notice can be found on the ROSS web site under Release Notices. [Posted 8/28/2008 at 1010M]

6. ROSS PRACTICE AND TRAINING UPDATE
As you know ROSS Practice and Training have been taken off line to update to the current version. We are estimating that Training will not be available from 8/25/08 until approximately 1/5/09 and Practice will not be available from 8/25/08 until approximately 1/30/09. Following is the functionality that will/won't be available on Practice and Training once they are brought back on line: PRACTICE will include current version, Reports, CAD, IQCS, ICBS and IQS interfaces. TRAINING will include current version and Reports. CAD, IQCS, ICBS and IQS Interfaces will not be included on Training. We apologize for this inconvenience because we know this is going to have a big impact on users. [Posted 9/26/2008 at 1432M]

7. REQUESTING NEW VENDOR ORGANIZATIONS
Prior to submitting a request to create a Vendor Organization, please search for the Vendor's name when entering the contract or resource items (each Vendor must have only one record in ROSS). You don't have to manage a Vendor in order to attach your resources and contracts to it. If you do not find the Vendor, then please fill out the request form and follow the process to establish that Vendor organization as outlined on the ROSS webpage (http://ross.nwcg.gov). [Posted 4/17/2008 at 0954M]

6. Organizations Module

1. REPORTS ISSUE
A new version of Analytical Reports was deployed on 11/12. General users will not see much difference except for the following Community Reports issues: (1) Incident Reports. They are producing an error so the Filled STD Pack QTY column has been removed so they will run without error. The column will be
added back in once the fix is deployed, and (2) Status Reports. User may find that some are taking a long time to run. The problem is being investigated. [Posted at 11/14/2008 at 0759M]

2. REPORTS AND PRINTING ISSUE
Please print all the requests from a large incident during off hours to avoid impacting other users. [Posted 9/26/2008 at 1450M].

3. BLM AUTHORIZED USE OF THUNDERBIRD FOR DMS USE IN DISPATCH OFFICES AND INCIDENTS
This is only for use in dispatch offices on the BLM network or for disconnected fire clients: Thunderbird is for use only with the DMS application and all other BLM email must use Lotus Notes. It is not acceptable to use Thunderbird in lieu of Lotus Notes or configured as a standard BLM email client. Administrator privileges are required for installation. 1. Helpdesk Phone Problems Update
2. Reports and Printing Issue
3. BLM Authorizes use of Thunderbird for DMS use in Dispatch Offices and Incidents Update
4. ROSS Practice and Training Update
5. Requesting New Vendor Organizations
6. Organizations Module

1. HELPDESK PHONE PROBLEMS
The toll free number for the Helpdesk is now working correctly so you can use the 866-224-7677 number. Sorry for the inconvenience. [Posted 11/12/2008 at 1112M]

2. REPORTS AND PRINTING ISSUE
Please print all the requests from a large incident during off hours to avoid impacting other users. [Posted 9/26/2008 at 1450M].

3. BLM AUTHORIZED USE OF THUNDERBIRD FOR DMS USE IN DISPATCH OFFICES AND INCIDENTS
THIS IS ONLY FOR USE IN DISPATCH OFFICES on the BLM network OR FOR DISCONNECTED FIRE CLIENTS: Thunderbird is for use only with the DMS application and all other BLM email must use Lotus Notes. It is not acceptable to use Thunderbird in lieu of Lotus Notes or configured as a standard BLM email client. Administrator privileges are required for installation. The Release Notice can be found on the ROSS web site under Release Notices. [Posted 8/28/2008 at 1010M]
4. ROSS PRACTICE AND TRAINING UPDATE
As you know ROSS Practice and Training have been taken off line to update to the current version. We are estimating that Training will not be available from 8/25/08 until approximately 1/5/09 and Practice will not be available from 8/25/08 until approximately 1/30/09. Following is the functionality that will/won't be available on Practice and Training once they are brought back on line: PRACTICE will include current version, Reports, CAD, IQCS, ICBS and IQS interfaces. TRAINING will include current version and Reports. CAD, IQCS, ICBS and IQS Interfaces will not be included on Training. We apologize for this inconvenience because we know this is going to have a big impact on users. [Posted 9/26/2008 at 1432M]

5. REQUESTING NEW VENDOR ORGANIZATIONS
Prior to submitting a request to create a Vendor Organization, please search for the Vendor’s name when entering the contract or resource items (each Vendor must have only one record in ROSS). You don't have to manage a Vendor in order to attach your resources and contracts to it. If you do not find the Vendor, then please fill out the request form and follow the process to establish that Vendor organization as outlined on the ROSS webpage (http://ross.nwcg.gov). [Posted 4/17/2008 at 0954M]

6. ORGANIZATIONS MODULE
Access to the Organization screen has been restricted. Instructions for submitting requests for Organization changes are posted on the ROSS Web Site (http://ross.nwcg.gov). Look for the "Request Organization Update" link. [Posted 4/17/2008 at 0954 MT].

6. Organizations Module

1. REPORTS OFFLINE
A Reports server had some issues and it was taken off line a few days ago. It has now been fixed and we need to bring it back on line so we have redundant servers again. This will occur starting at 0600 (mountain time) on Friday, October 24th. The Reports outage will last from 1-5 hours (we are unsure of the time frame because there may be some troubleshooting needed to insure it is operating as it should). A message will be sent once Reports are functional again as well as a message posted on the ROSS Message Board. The outage will only affect the following: Resource Order Printing; Use of Reports; DDS Files will not be up to date. Again, the ROSS application will still be available. [Posted 10/23/2008 at 0922Mtn]

2. REPORTS AND PRINTING ISSUE
Please print all the requests from a large incident during off hours to avoid impacting other users. [Posted 9/26/2008 at 1450M].

3. BLM AUTHORIZED USE OF THUNDERBIRD FOR DMS USE IN DISPATCH OFFICES AND INCIDENTS

Following is the functionality that will/won't be available on Practice and Training once they are brought back on line: PRACTICE will include current version, Reports, CAD, IQCS, ICBS and IQS interfaces. TRAINING will include current version and Reports. CAD, IQCS, ICBS and IQS Interfaces will not be included on Training. We apologize for this inconvenience because we know this is going to have a big impact on users. [Posted 9/26/2008 at 1432M]

5. REQUESTING NEW VENDOR ORGANIZATIONS
Prior to submitting a request to create a Vendor Organization, please search for the Vendor’s name when entering the contract or resource items (each Vendor must have only one record in ROSS). You don’t have to manage a Vendor in order to attach your resources and contracts to it. If you do not find the Vendor, then please fill out the request form and follow the process to establish that Vendor organization as outlined on the ROSS webpage (http://ross.nwcg.gov). [Posted 4/17/2008 at 0954M]

6. ORGANIZATIONS MODULE
Access to the Organization screen has been restricted. Instructions for submitting requests for Organization changes are posted on the ROSS Web Site (http://ross.nwcg.gov). Look for the "Request Organization Update" link. [Posted 4/17/2008 at 0954 MT].

September 21, 2008 – 1325 MT
PLEASE SCROLL DOWN TO VIEW THE FOLLOWING TOPICS:
1. Reports and Printing Issue Resolved
2. BLM Authorizes use of Thunderbird for DMS use in Dispatch Offices and Incidents
3. ROSS Practice and Training Update
4. Requesting New Vendor Organizations
5. Organizations Module

1. REPORTS AND PRINTING ISSUE RESOLVED
The print queues have been cleared and reports are now processing again. This issue was apparently caused by multiple attempts to print the maximum number of requests from one incident. If there is a need to print all the requests from a large incident please schedule the job or process it during off hours to avoid impacting other users. [Posted 9/21/2008 at 1325M].

2. BLM AUTHORIZED USE OF THUNDERBIRD FOR DMS USE IN DISPATCH OFFICES AND INCIDENTS THIS IS ONLY FOR USE IN DISPATCH OFFICES on the BLM network OR FOR DISCONNECTED FIRE CLIENTS:
Thunderbird is for use only with the DMS application and all other BLM email must use Lotus Notes. It is not acceptable to use Thunderbird in lieu of Lotus Notes or configured as a standard BLM email client. Administrator privileges are required for installation. The Release Notice can be found on the ROSS web site under Release Notices. [Posted 8/28/2008 at 1010M]

3. ROSS PRACTICE AND TRAINING UPDATE
As you know ROSS Practice and Training are not on the current version. In order to bring them up to date, they need to be taken off line as soon as possible to begin the process of completely rebuilding the servers. We do not have the
equipment to keep them functioning while this work is done. The rebuilding of these instances is not a trivial issue and it is going to take time for that to happen. We are estimating that Training will not be available from 8/25/08 until approximately 1/5/09 and Practice will not be available from 8/25/08 until approximately 1/30/09. Following is the functionality that will/won't be available on Practice and Training once they are brought back on line: PRACTICE will include current version, Reports, CAD, IQCS, ICBS and IQS interfaces. 2. ROSS PRODUCTION NOTIFIER ISSUES
The slow issues with the Notifier are being addressed and users should see some relief this week. We apologize for the inconvenience. [Posted 8/20/2008 at 1239M]

3. REQUESTING NEW VENDOR ORGANIZATIONS
Prior to submitting a request to create a Vendor Organization, please search for the Vendor's name when entering the contract or resource items (each Vendor must have only one record in ROSS). You don't have to manage a Vendor in order to attach your resources and contracts to it. If you do not find the Vendor, then please fill out the request form and follow the process to establish that Vendor organization as outlined on the ROSS webpage (http://ross.nwcg.gov). [Posted 4/17/2008 at 0954M]

4. ORGANIZATIONS MODULE
Access to the Organization screen has been restricted. Instructions for submitting requests for Organization changes are posted on the ROSS Web Site
August 20, 2008 – 1239 MT
PLEASE SCROLL DOWN TO VIEW THE FOLLOWING TOPICS:
1. ROSS Production Maintenance tomorrow morning
2. ROSS Practice and Training Update
3. ROSS Production Notifier Issues
4. Requesting New Vendor Organizations
5. Organizations Module

1. ROSS PRODUCTION MAINTENANCE -- 8/21
The ROSS application will be available during a maintenance window beginning at 0500 hours (mountain) tomorrow morning (8/21) but the following will be unavailable for approximately 1 hour beginning at that time: (1) Creation of an OH resource in ROSS; (2) IQCS to ROSS; (2) ICBS/ROSS interface; and (3) CAD/ROSS interface.  [Posted 8/20/2008 at 1239M]

2. ROSS PRACTICE AND TRAINING UPDATE
As you know ROSS Practice and Training are not on the current version. In order to bring them up to date, they need to be taken off line as soon as possible to begin the process of completely rebuilding the servers. We do not have the equipment to keep them functioning while this work is done. The rebuilding of these instances is not a trivial issue and it is going to take time for that to happen. We are estimating that Training will not be available from 8/25/08 until approximately 1/5/09 and Practice will not be available from 8/25/08 until approximately 1/30/09.  Following is the functionality that will/won't be available on Practice and Training once they are brought back on line: PRACTICE will include current version, Reports, CAD, IQCS, ICBS and IQS interfaces. TRAINING will include current version and Reports. CAD, IQCS, ICBS and IQS Interfaces will not be included on Training. We apologize for this inconvenience because we know this is going to have a big impact on users.  [Posted 8/20/2008 at 1239M]

3. ROSS PRODUCTION NOTIFIER ISSUES
The slow issues with the Notifier are being addressed and users should see some relief this week. We apologize for the inconvenience. [Posted 8/20/2008 at 1239M]

4. REQUESTING NEW VENDOR ORGANIZATIONS
Prior to submitting a request to create a Vendor Organization, please search for the Vendor's name when entering the contract or resource items (each Vendor must have only one record in ROSS). You don't have to manage a Vendor in order to attach your resources and contracts to it. If you do not find the Vendor, then please fill out the request form and follow the process to establish that Vendor organization as outlined on the ROSS webpage (http://ross.nwcg.gov). [Posted 4/17/2008 at 0954M]
5. ORGANIZATIONS MODULE
Access to the Organization screen has been restricted. Instructions for submitting requests for Organization changes are posted on the ROSS Web Site (http://ross.nwcg.gov). Look for the "Request Organization Update" link. [Posted 4/17/2008 at 0954 MT].

August 11, 2008 – 1513 MT
PLEASE SCROLL DOWN TO VIEW THE FOLLOWING TOPICS:
1. ROSS Production Notifier Issues
2. New User Community Reports available
3. Scheduled Reports Information
4. Requesting New Vendor Organizations
5. Organizations Module

1. ROSS PRODUCTION NOTIFIER ISSUES
The slow issues with the Notifier are being addressed and should be resolved soon. We apologize for the inconvenience. [Posted 8/11/2008 at 1513MT]

2. ROSS MAINTENANCE WEDNESDAY MORNING
The ROSS application will be available during a maintenance window beginning at 0500 hours MT Wednesday 8/6/2008 but the following will be unavailable for approximately 1 hour beginning at that time: (1) Creation of an OH resource in ROSS; (2) IQCS to ROSS; (2) ICBS/ROSS interface; (3) CAD/ROSS interface. [Posted 8/5/2008 at 1009M]

3. NEW USER COMMUNITY REPORTS AVAILABLE
The reports include specific data for: (1) "Incidents" (such as Request History, Pending Requests, Resources Currently on Assignment), (2) "Resources" (Availability & Status), and (3) "Workload" (24 hour CORD and Year-To-Date Actions taken on Requests). The reports are designed for you to filter by single (or multiple) Incident GACC/Incident Dispatch, Incident Agency/Incident Host, or Resource GACC/Resource Dispatch. They can be accessed via "Administration" on the ROSS menu bar -> "Reports" -> "User Community Reports" folder. [Posted 7/28/2008 at 1147M]

4. SCHEDULED REPORTS CHANGE WITH VERSION 2.8
During the ROSS 2.8 deployment, the LDAP sever was upgraded, which will cause scheduled ROSS reports to no longer run. To ensure your scheduled reports continue to run, you will need to renew your Cognos credentials. To renew your Cognos credentials: (1) On the Cognos Connection toolbar, click the Tools drop-down arrow, and then click My Preferences. (2) On the Set preferences screen, click the Personal tab. (3) Under Credentials, click to select the Renew the credentials link. This information can also be found in the ROSS User Guide - Reports chapter and on the ROSS web site. [Posted 7/2/2008 at 0800M]
5. REQUESTING NEW VENDOR ORGANIZATIONS
Prior to submitting a request to create a Vendor Organization, please search for the Vendor's name when entering the contract or resource items (each Vendor must have only one record in ROSS). You don't have to manage a Vendor in order to attach your resources and contracts to it. If you do not find the Vendor, then please fill out the request form and follow the process to establish that Vendor organization as outlined on the ROSS webpage (http://ross.nwcg.gov).

July 1, 2008 - 1540 MT
PLEASE SCROLL DOWN TO VIEW THE FOLLOWING TOPICS:
1. Deployment of ROSS Version 2.8 Rescheduled
2. ROSS Status Update
3. Printing Problems
4. Requesting New Vendor Organizations
5. Organizations Module
1. Deployment of ROSS Version 2.8 Rescheduled
ROSS Version 2.8 deployment is now scheduled for Tuesday evening, July 1 beginning at 2300M. The deployment will take approximately 6-7 hours. Please note that the DDS jobs may take a little to be updated. As in the past, we will be checking with NICC a couple of times on Tuesday to see if this is still a Go. VERSION 2.7 MUST BE UNINSTALLD before installing version 2.8. The Helpdesk has sent instructions to your DMS inbox. [Posted 7/1/2008 at 1540M]

2. ROSS Status Update [Posted 6/29/2008 at 1045M]
We have discovered what is causing the performance issues that occurred the last two days and plan to implement a short term solution early this week. Should the warning signs occur on an application server again today, that server will be recycled. This will terminate the ROSS sessions of some users, who will have to log back in, but should prevent a system-wide outage. Following are user actions can help the current situation:
   1) Try to be patient and allow transactions to complete. Using the Task Manager to terminate ROSS then logging back in to attempt the same action contributes to the problem.
   2) Multiple users should not work on the same Assignment Roster.
   3) Do not use the Resource Status and Assignment Roster screens at the same time.

Due to a bug in Oracle, ROSS is experiencing problems with streaming of data to Cognos. As a result, Resource Orders and other print button reports may not display current data (i.e., if actions were taken on the request during a streams failure). Mitigation steps are being taken but it will require an outage or deployment of version 2.8 to eliminate the problem. Until that occurs you may use 'print screen' functionality to capture and print request information. Screen options for capturing information include View Request, View Associated Requests (for assignment rosters) and View Incident (for header information). Use the following steps to capture a screen for printing:
   1) Click within the screen or dialog box to make sure it is the active window.
   2) Press Alt Print Screen.
   3) Open a blank Word document and press Ctrl V
   4) Repeat steps 1 through 3 if information on additional screens or tabs is needed.
   5) Print

4. REQUESTING NEW VENDOR ORGANIZATIONS
Prior to submitting a request to create a Vendor Organization, please search for the Vendor's name when entering the contract or resource items (each Vendor must have only one record in ROSS). You don't have to manage a Vendor in order to attach your resources and contracts to it. If you do not find the Vendor, then please fill out the request form and follow the process to establish that Vendor organization as outlined on the ROSS webpage (http://ross.nwcg.gov).[Posted 04/17/2008 at 0954M]
5. ORGANIZATIONS MODULE

3. Deployment of ROSS Version 2.8 Postponed
ROSS Version 2.8 has been postponed for one week. It is now scheduled for Monday evening, June 30 beginning at 2300 hours mountain. The deployment will take approximately 8 hours. As in the past, we will be checking with NICC a couple of times on Monday to see if this is still a Go and if there is a chance to start earlier - this would allow the DDS jobs to finish running by 0700 on Tuesday. This version will require an uninstall of version 2.7 before downloading and installing version 2.8. Instructions have been sent to your DMS inbox from the Helpdesk. [Posted 6/22/2008 at 1925M]

4. REQUESTING NEW VENDOR ORGANIZATIONS
Prior to submitting a request to create a Vendor Organization, please search for the Vendor's name when entering the contract or resource items (each Vendor must have only one record in ROSS). You don’t have to manage a Vendor in order to attach your resources and contracts to it. If you do not find the Vendor, then please fill out the request form and follow the process to establish that Vendor organization as outlined on the ROSS webpage (http://ross.nwcg.gov). [Posted 04/17/2008 at 0954M]

5. ORGANIZATIONS MODULE
Access to the Organization screen has been restricted. Instructions for submitting requests for Organization changes are posted on the ROSS Web Site (http://ross.nwcg.gov). Look for the "Request Organization Update" link. [Posted 4/17/2008 at 0954 MT].

1. Printing Problems
2. Deployment of ROSS Version 2.8 Postponed
3. Extended Deadline for Reclassifying Water Tenders
4. Requesting New Vendor Organizations
5. Organizations Module

Due to a bug in Oracle, ROSS is experiencing problems with streaming of data to Cognos. As a result, Resource Orders and other print button reports may not display current data (i.e., if actions were taken on the request during a streams failure). Mitigation steps are being taken but it will require an outage or deployment of version 2.8 to eliminate the problem. Until that occurs you may use 'print screen' functionality to capture and print request information. Screen options for capturing information include View Request, View Associated Requests (for assignment rosters) and View Incident (for header information). Use the following steps to capture a screen for printing:
   1) Click within the screen or dialog box to make sure it is the active window.
   2) Press Alt Print Screen.
   3) Open a blank Word document and press Ctrl V
   4) Repeat steps 1 through 3 if information on additional screens or tabs is needed.
   5) Print

2. Deployment of ROSS Version 2.8 Postponed
ROSS Version 2.8 has been postponed for one week. It is now scheduled for Monday evening, June 30 beginning at 2300 hours mountain. The deployment will take approximately 8 hours. As in the past, we will be checking with NICC a couple of times on Monday to see if this is still a Go and if there is a chance to start earlier - this would allow the DDS jobs to finish running by 0700 on Tuesday. This version will require an un install of version 2.7 before downloading and installing version 2.8. Instructions have been sent to your DMS inbox from the Helpdesk. [Posted 6/22/2008 at 1925M]

3. EXTENDED DEADLINE FOR RECLASSIFYING WATER TENDERS
On April 17th users were advised that ROSS water tenders must be reclassified as either 'support' or 'tactical' in order to meet the new NWCG standards. The deadline for reclassifying ROSS water tenders has been temporarily extended. Over 2200 water tenders still hold obsolete classifications which will eventually be removed. By GACC, the number of water tenders still needing action is: ONC 688, RMC 377, NRC 284, SWC 208, OSC 204, EBC 198, WBC 93, NWC 85, ACC 57, SAC 40 and EAC 24. Further information is available on the ROSS web page at: http://ross.nwcg.gov. [Update posted 05/29/2008 at 1215M]

Access to the Organization screen has been restricted. Instructions for submitting requests for Organization changes are posted on the ROSS Web Site (http://ross.nwcg.gov). Look for the "Request Organization Update" link. [Posted 4/17/2008 at 0954 MT].

5. USER ACCOUNT AUDIT
A major audit of all system user accounts will begin in June. Account managers will be provided instructions for a new format for all usernames. In addition, new security rules will be announced for role management. Completing the
requested tasks in support of the audit ARE MANDATORY and must be completed by the requested due dates. [Posted 4/17/2008 at 1049 MT]

June 5, 2008 - 1102 MT
PLEASE SCROLL DOWN TO VIEW THE FOLLOWING TOPICS:
1. ROSS Production Reports Work RESCHEDULED- 6/5
2. Extended Deadline for Reclassifying Water Tenders
3. Requesting New Vendor Organizations
4. Organizations Module
5. User Account Audit

1. ROSS Production Reports Work Rescheduled for 6/5
In order to correct an issue with some DDS files, reports will be unavailable beginning at 2100 hours Mountain tonight. This work will last for approximately 1 hour. Reports within ROSS and printing will be unavailable during this time. The ROSS application will continue to operate. [Posted on 6/5/2008 at 1102M]

2. EXTENDED DEADLINE FOR RECLASSIFYING WATER TENDERS
On April 17th users were advised that ROSS water tenders must be reclassified as either 'support' or 'tactical' in order to meet the new NWCG standards. The deadline for reclassifying ROSS water tenders has been temporarily extended. Over 2200 water tenders still hold obsolete classifications which will eventually be removed. By GACC, the number of water tenders still needing action is: ONC 688, RMC 377, NRC 284, SWC 208, OSC 204, EBC 198, WBC 93, NWC 85, ACC 57, SAC 40 and EAC 24. Further information is available on the ROSS web page at: http://ross.nwcg.gov. [Update posted 05/29/2008 at 1215M]

3. REQUESTING NEW VENDOR ORGANIZATIONS
Prior to submitting a request to create a Vendor Organization, please search for the Vendor's name when entering the contract or resource items (each Vendor must have only one record in ROSS). You don't have to manage a Vendor in order to attach your resources and contracts to it. If you do not find the Vendor, then please fill out the request form and follow the process to establish that Vendor organization as outlined on the ROSS webpage (http://ross.nwcg.gov). [Posted 04/17/2008 at 0954M]

4. ORGANIZATIONS MODULE
Access to the Organization screen has been restricted. Instructions for submitting requests for Organization changes are posted on the ROSS Web Site (http://ross.nwcg.gov). Look for the "Request Organization Update" link. [Posted 4/17/2008 at 0954 MT].

5. USER ACCOUNT AUDIT
A major audit of all system user accounts will begin in June. Account managers will be provided instructions for a new format for all usernames. In addition, new security rules will be announced for role management. Completing the requested
tasks in support of the audit ARE MANDATORY and must be completed by the requested due dates. [Posted 4/17/2008 at 1049 MT]

1. ROSS Production Maintenance Tonight
2. Extended Deadline for Reclassifying Water Tenders
3. Requesting New Vendor Organizations
4. Organizations Module
5. User Account Audit

1. ROSS Production Maintenance - 5/29
NITC has requested time to upgrade some internal software on ROSS Production to prevent the server from locking up. This will take about 1 hour and will begin at 2100 hours (mountain) tonight. Since our servers are "clustered," users will be able to continue working in ROSS but may have to log off and back on again to get on the working server since one database server will be off line. Unfortunately the CAD and IQCS interface will be stopped during this time but this should prevent the issues we had last week when the integration servers did not come back on line cleanly. [Posted 5/29/08 at 1610M]

2. EXTENDED DEADLINE FOR RECLASSIFYING WATER TENDERS
On April 17th users were advised that ROSS water tenders must be reclassified as either 'support' or 'tactical' in order to meet the new NWCG standards. 1. Clearinghouse Issue Update - 5/19
After the recycle of RC and shutting down of one of the integration servers, the messages are being processed successfully. Early on Saturday morning, one of the database nodes crashed. NITC has submitted a ticket to Oracle to investigate the root cause of the crash. One of the integration servers did not recover from that well and backed-up the queues for both CAD and IQCS. We are looking into ways to monitor these queues and processes to proactively identify issues. [Posted 05/19/2008 at 1650M]

PLEASE SCROLL DOWN TO VIEW THE FOLLOWING TOPICS:
1. Expanded Helpdesk Hours
1. EXPANDED HELPDESK HOURS
   Effective May 1, 2008 the Helpdesk office will be staffed seven days a week
   from 0700 to 2300 Eastern. In case of system emergencies, cell phone
   support is provided from 2301E to 0659E by calling the regular number. The
   Helpdesk DMS email inbox is not monitored during off hours. [Posted
   05/01/2008 at 0805M]

2. WATER TENDERS MUST BE RECLASSIFIED
   All water tenders in ROSS must be reclassified to meet the new NWCG
   standards. Obsolete classifications will be removed on June 1, 2008. Please
   visit http://ross.nwcg.gov for more information. [Posted 04/17/2008 at
   0954M]

3. REQUESTING NEW VENDOR ORGANIZATIONS
   Prior to submitting a request to create a Vendor Organization, please search
   for the Vendor's name when entering the contract or resource items (each
   Vendor must have only one record in ROSS). You don't have to manage a
   Vendor in order to attach your resources and contracts to it. If you do not
   find the Vendor, then please fill out the request form and follow the process
   to establish that Vendor organization as outlined on the ROSS webpage
   (http://ross.nwcg.gov).[Posted 04/17/2008 at 0954M]

1. KNOWN ISSUE
   For requests that specify "Trainee Acceptable", resources whose qualification status is Unqualified or Blocked are displayed on the Available tab even though users have not performed an override search. However, users will know when the overhead resource they select to fill the request is either blocked or unqualified because documentation will be required. See page 8 of the 2.7 Release Notes for more information (http://ross.nwcg.gov). The fix for this software problem will be deployed in version 2.8.

2. ORGANIZATIONS MODULE
   Access to the Organization screen has been restricted. Instructions for submitting requests for Organization changes are posted on the ROSS Web Site (http://ross.nwcg.gov). Look for the "Request Organization Update" link. Users MUST add the existing user named "Organization Maintenance" to their list of approved users and assign the roles of "Organization Record Manager" and "Basic User". This is completed from the User Accounts screen (New button) by searching (from the Search tab) for a user with the last name of "Organization". Once added, this user must be assigned the roles previously mentioned.

3. USER ACCOUNT AUDIT
A major audit of all system user accounts will begin in April. Account managers will be provided instructions for a new format for all usernames. In addition, new security rules will be announced for role management. Completing the requested tasks in support of the audit ARE MANDATORY and must be completed by the requested due dates.

2. ORGANIZATIONS MODULE Access Restriction
3. DATA ARCHIVE
4. USER ACCOUNT AUDIT

March 9, 2008 – 2040MT
PLEASE SCROLL DOWN TO READ MORE CRITICAL MESSAGES.

**ROSS Production Outage**
ROSS Production will be off line beginning at 2000 hours (MT) on Thursday, March 13. The outage will last for approximately 2-3 hours. The update will include the following changes:

*When certain IQCS ADD Qual records were sent to ROSS, a Java Null Pointer message was received in a response message by IQCS. This has been corrected and the resource and Qual are recorded correctly in ROSS.*
*When an "Add Qualification" message was sent to ROSS from IQCS for a record that already exists with qualifications in ROSS, all qualifications that previously existed were removed and only the newly sent qualification was saved to the ROSS record. This has been corrected.

* When a resource was assigned to a roster and the roster was unfilled or reassigned from an incident, the original roster assignment was not being correctly canceled. The original assignment is now being canceled correctly allowing the resource to fill a request or reassignment.

*Unfil of a nested roster lead to an error when attempting to fill the request again. This has been corrected.

*Auto documentation will be included in the DDS. [Posted 3/9/2008 at 2040 MT]

**March 6, 2008 – 2146MT**
**ORGANIZATIONS MODULE Access Restriction**
Effective March 17, 2008, access to the Organization Module will be restricted. All management of Organization record data will be centralized. Instructions for submitting requests for Organization changes will be posted on the ROSS Web Site (http://ross.nwcg.gov) by COB March 12, 2008. USERS MUST PREPARE for this event by adding a user called "Organization Maintenance" to their list of approved users and giving the user the roles of "Organization Record Manager" and "Basic User". This is completed from the User Accounts screen (New Button) by searching (from the Search Tab) for a user with the last name of "Organization". Once added, this user must be provided the roles previously mentioned. This MUST be completed by 3/17/2008. [Posted 3/6/2008 at 2146 MT]

**DATA ARCHIVE**
Archiving of the 2007 (and prior data) will occur before the end of March. The exact date will be announced shortly. [Posted 3/6/2008 at 2146 MT]

**USER ACCOUNT AUDIT**
A major audit of all system user accounts will begin in April. Account managers will be provided instructions for a new format for all usernames. In addition, new security rules will be announced for role management. Completing the requested tasks in support of the audit ARE MANDATORY and must be completed by the requested due dates. [Posted 3/6/2008 at 2146 MT]

**February 19, 2008 – 1045 MT**
**ROSS Production Outage on 2/19**
ROSS Production will be unavailable starting at 2000 hours (MT) on 2/19. The outage will last approximately 5-6 hours. This outage is needed to add some "spacers" to the memory that was added a couple of weeks ago.
**February 18, 2008 – 1000 MT**
**ROSS Production Outage on 2/19**
It is very likely that there will be a ROSS Production outage starting at 2000 hours (MT) on 2/19 that will last for approximately 3-4 hours. This outage is needed to add some "spacers" to the memory that was added a couple of weeks ago. We are going to be testing the "failover" at the same time so it is also likely that there will not be an outage if the failover test is successful.

**February 14, 2008 – 0730 MT**
**ROSS Production Outage - 2/15**
ROSS Production will be unavailable on 2/15 beginning at 2000 hours MT. The outage will last approximately 5-6 hours to perform some critical maintenance.

**February 12, 2008 – 1600 MT**
ROSS Production Outage - the following fixes will be deployed beginning at 2000 hours MT on 2/13. The outage will last approximately 3 hours. There will also be an outage on 2/15 beginning at 2000 hours MT that will last approximately 5-6 hours to perform some critical maintenance.

Defect 4898: When the middle name of a ROSS-owned overhead resource was updated a software problem prevented the change from being applied to the resource's record in the ROSS Resource Clearinghouse. This meant ROSS and the Clearinghouse were no longer synchronized and subsequent changes to the ROSS record were rejected by the Clearinghouse. This has been corrected.

Defect 4813: Subordinate requests that had been "Filled with Agreement" could not be Unfilled. The error generated was "Delete rejected because there are ASSIGN_ROSTER_RES found for RESOURCES". This has been corrected.

Defect 5067: When a subordinate group on a nested preposition roster was Unfilled (e.g., an Engine with configuration on an Engine Strike Team) some references for the deleted assignment roster remained in the system. If the Strike Team assignment roster was subsequently completed (including the unfilled positions) and then assigned to a non-preposition incident a null pointer error was generated. This has been fixed.

**February 6, 2008 – 2030 MT**
**Urgent ROSS Production Outage - Change from 2/6 0800 posting**
A higher priority task is going to be completed on 2/7 instead of the fixes that were previously mentioned. The critical task to be completed is to add memory to the servers so we can get the next ROSS version deployed on a pre-production environment (which is partitioned on the Production server). For that reason, ROSS Production will be off line starting at 1800 hours (MT) and will last for approximately 6 hours. We apologize for this inconvenience.
**February 6, 2008 – 0800 MT**
ROSS Production will be unavailable on 2/7 from 2000 (MT) until approximately 2300 (MT) to deploy some minor fixes: (1) When the middle name of a ROSS-owned overhead resource was updated a software problem prevented the change from being applied to the resource's record in the ROSS Resource Clearinghouse. This has been corrected; (2) Subordinate requests that had been "Filled with Agreement" could not be Unfilled. The error generated was "Delete rejected because there are ASSIGN_ROSTER_RES found for RESOURCES". This has been corrected; (3) When a subordinate group on a nested preposition roster was Unfilled (e.g., an Engine with configuration on an Engine Strike Team) some references for the deleted assignment roster remained in the system. If the Strike Team assignment roster was subsequently completed (including the unfilled positions) and then assigned to a non-preposition incident a null pointer error was generated. This has been fixed.

**January 25, 2008 – 1230 MT**
ROSS Training and Practice
The maintenance that was performed on ROSS Production has been completed on Training and Practice.

**January 25, 2008 – 1130 MT**
ROSS Training and Practice
The maintenance that was performed on ROSS Production needs to be completed on Training and Practice. This will be done today 1/25/2008 at 1200 MT. It will only take about an hour to complete.

**January 24, 2008 – 2338 MT**
ROSS users need to know that one of the changes that was deployed on 1/24 on ROSS Production is a security requirement that the system will lock you out after 3 failed attempts instead of the current 5. As stated, we do not have a choice with implementing this change.

**January 24, 2008 – 1335 MT**
ROSS users need to know that one of the changes that will be deployed tonight on ROSS Production is a security requirement that the system will lock you out after 3 failed attempts instead of the current 5. As stated, we do not have a choice with implementing this change.

**January 23, 2008 – 1515 MT**
ROSS Production will be unavailable from 2100 hours MST on 1/24 until approximately 2300 hours MST to perform some minor maintenance.

**January 23, 2008 – 1155 MT**
**PREPARING FOR ARCHIVE**
As of January 23, 2008, there are a few incidents that possibly could be closed, otherwise, we are looking pretty good for archive.

So please take one more look and make your decision soon. This is your decision, so make it a good one.

When all open requests are closed on an incident:
To quickly find incidents that can be closed, dispatchers should open the Incident List screen and filter for Open incidents. Scan the "Can be Closed?" column. Any incidents that display "Yes" should be closed. NOTE: Request information for Closed incidents is available in the Request List report and via the Data Delivery System. This information may be used as documentation for payments.

**January 22, 2008 – 1550 MT**
**ROSS Reports Outage on 1/23**
The use of Reports within ROSS and the print function within ROSS will be unavailable for approximately one hour beginning at 2000 hours MT on Wednesday, January 23 2008 to do some general updates. Check the email from the Helpdesk for the details.

**January 10, 2008 – 1125 MT**
**ROSS Reports Deployment**
The ROSS Reports deployment has been completed and you can now select a large number of requests from the same incident and catalog and run the Resource Order Form Report. We apologize for the confusion regarding the deployment as a message was posted but did not display for some reason.

**January 9, 2008 – 1900 MT**
**Due to circumstances beyond our control the ROSS Reports authentication code fix will not be deployed on 1/10. The new deployment date and time will be posted here when it is approved. We apologize for this inconvenience.**

**January 9, 2008 – 1330 MT**
**ROSS Reports Unavailability**
ROSS Reports (within the application) and printing (such as resource orders) will be unavailable from 0730 (mountain) until approximately 0930 (mountain) on 1/10/08 to deploy an authentication code fix.
