Message Board Posts 2012

January 8, 2013 – 1630 MST
PLEASE SCROLL DOWN TO VIEW INFORMATION ON THE FOLLOWING TOPICS:

1. URGENT – INCIDENTS NEED TO BE CLOSED
2. ROSS PRODUCTION ENVIRONMENT SCHEDULED OUTAGE - ANNUAL DATA ARCHIVE
3. ROSS PRODUCTION ENVIRONMENT SCHEDULED OUTAGE - SECURITY RESET AND MAINTENANCE

1. It is CRITICAL that offices close all 2012 (and prior year) incidents if there are no resources on the incident as the archive will take place on January 15, 2013. If there are no resources on an incident but you want it in 2013, please close it and then create a new incident (dated after January 1, 2013). Please contact the IIA Help Desk at 866-224-7677 if you have questions. If you need a copy of the Resource Order form, it can be obtained through ROSS Reports. [Posted 01/02/2013 at 1300 MST]

2. There will be a scheduled outage of the ROSS Production environment for the Annual Data Archive on January 15, 2013 beginning at 1930 MST and lasting for approximately 13 hours. No additional user actions are required following the outage. [Posted 01/08/2013 at 1630 MST]

3. There will be a scheduled outage of the ROSS Production environment for a security reset and system maintenance on January 24, 2013 beginning at 2030 MST and lasting for approximately 7.5 hours. No additional user actions are required following the outage. [Posted 01/08/2013 at 1630 MST]

December 12, 2012 – 1545MST
PLEASE SCROLL DOWN TO VIEW INFORMATION ON THE FOLLOWING TOPICS:

1. ROSS APPLICATION SCHEDULED OUTAGE – PART 1
2. ROSS APPLICATION SCHEDULED OUTAGE – PART 2

1. The entire ROSS application will be down for maintenance and unavailable beginning on Tuesday, December 18, 2012 starting at 2100 MST through 0400 MST on December 19, 2012 for a total outage time of 7 hours. [Posted 12/12/2012 at 1545 MST]

2. The entire ROSS application will be down for maintenance and unavailable beginning on Thursday, December 20, 2012 starting at 2100 MST through 0300
November 21, 2012 – 1030MST
PLEASE SCROLL DOWN TO VIEW INFORMATION ON THE FOLLOWING TOPICS:

1. NON-FS CITRIX SERVER UPGRADE – NEW URL
2. FOREST SERVICE CITRIX SERVER OUTAGE
3. ICBS SPECIAL CHARACTER ERROR AND WORK AROUND

1. The new Non-FS Citrix Server Farm is running and available for use to access the ROSS application. The new URL is https://ross.fs.fed.us/XenApp - there are no changes to user names or passwords. The old Non-FS Citrix Server Farm (https://ross.fs.fed.us/Citrix) will be decommissioned and no longer available for use on Monday, December 3, 2012 at 1800 MST. [Posted 11/21/2012 at 1030 MST]

2. Forest Service Employees who access ROSS through the Forest Service Citrix servers will not be able to use them from 1700 MST on Friday, November 23, 2012 through 0500 MST on Monday, November 26, 2012. The users may access ROSS through the client during this period of time. [Posted 11/19/2012 at 1130 MST]

3. ATTENTION USERS: When a space dash space (" - ") are copied from a Microsoft Word document and pasted into the ROSS Shipping Instructions or Special Needs fields, ICBS users are unable to view the items requested. ROSS users should avoid copying this combination into the Special Needs and Shipping Instructions fields. When this happens, an inverted question mark (¿) appears in the Shipping Instructions in ICBS where the space dash space was copied and the request cannot be viewed in ICBS.

For example, this set of Shipping Instructions in ROSS when cut/pasted from Word:

TO APACHE PASS ROAD - ENTRANCE TO FORT

appears like this in ICBS:

TO APACHE PASS ROAD ¿ ENTRANCE TO FORT

This will result in the ICBS user being unable to view the request.

WORK AROUND: If an ICBS user encounters this problem, they should contact the ROSS initiator of the request to retrieve the request, remove those characters, type in the desired text or copy it from a WordPad file, and then resubmit the request with the cache. [Posted 05/07/2012 at 1545 MDT]
November 16, 2012 - 0930MST
Attention all ROSS Users:

The BLM network continues to have issues with connectivity to ROSS. Network engineers are working on the problem.

November 16, 2012 – 0402MST
Attention all ROSS users:

System maintenance scheduled for Thursday, November 15, 2012 starting at 2100 MST through 0500 MST on November 16, has been completed and Ross is ready for use. Users accessing Ross through the BLM network may experience intermittent connectivity issues, we will be working to clear those issues up.

November 14, 2012 – 1000MST
PLEASE SCROLL DOWN TO VIEW INFORMATION ON THE FOLLOWING TOPICS:

1. ROSS APPLICATION SCHEDULED OUTAGE – ROSS MIGRATION
2. FOREST SERVICE CITRIX SERVER OUTAGE
3. ICBS SPECIAL CHARACTER ERROR AND WORK AROUND

1. The ROSS application will be unavailable due to system maintenance beginning on Thursday, November 15, 2012 starting at 2100 MST through 0330 MST on November 16, 2012 for a total outage time of 6.5 hours. No user actions are required following the outage. [Posted 11/07/2012 at 0930 MST]

2. Forest Service Employees who access ROSS through the Forest Service Citrix servers will not be able to use them from 1700 MST on Friday, November 16, 2012 through 0500 MST on Monday, November 19, 2012. The users may access ROSS through the client during this period of time. [Posted 11/14/2012 at 1000 MST]

3. ATTENTION USERS: When a space dash space (" - ") are copied from a Microsoft Word document and pasted into the ROSS Shipping Instructions or Special Needs fields, ICBS users are unable to view the items requested. ROSS users should avoid copying this combination into the Special Needs and Shipping Instructions fields. When this happens, an inverted question mark (¿) appears in the Shipping Instructions in ICBS where the space dash space was copied and the request cannot be viewed in ICBS.
For example, this set of Shipping Instructions in ROSS when cut/pasted from Word:
  TO APACHE PASS ROAD - ENTRANCE TO FORT
appears like this in ICBS:
  TO APACHE PASS ROAD - ENTRANCE TO FORT

This will result in the ICBS user being unable to view the request.

WORK AROUND: If an ICBS user encounters this problem, they should contact the ROSS initiator of the request to retrieve the request, remove those characters, type in the desired text or copy it from a WordPad file, and then resubmit the request with the cache. [Posted 05/07/2012 at 1545 MDT]

TO APACHE PASS ROAD - ENTRANCE TO FORT

appears like this in ICBS:

TO APACHE PASS ROAD ¿ ENTRANCE TO FORT

This will result in the ICBS user being unable to view the request.

**WORK AROUND:** If an ICBS user encounters this problem, they should contact the ROSS initiator of the request to retrieve the request, remove those characters, type in the desired text or copy it from a WordPad file, and then resubmit the request with the cache. [Posted 05/07/2012 at 1545 MDT]

---

**May 16, 2012 – 1400MDT**

PLEASE SCROLL DOWN TO VIEW INFORMATION ON THE FOLLOWING TOPICS:

1. ROSS PRACTICE ENVIRONMENT IS NOW AVAILABLE

2. ROSS PRODUCTION ENVIRONMENT SCHEDULED OUTAGE

3. ICBS SPECIAL CHARACTER ERROR AND WORK AROUND

1. **ATTENTION ROSS PRACTICE ENVIRONMENT USERS:** The ROSS Practice environment (Version 2.15) is now available following a successful redirection of the ROSS Practice NAP to Production NAP and a data refresh. Users may now begin using their user name and password obtained from the NAP Production environment ([https://nap.nwmg.gov/NAP/](https://nap.nwmg.gov/NAP/)) for both the ROSS Production and Practice environments. Users who previously had only a Practice NAP account will need to establish a new account in Production NAP to access the Practice environment. [Posted 05/16/2012 at 1400 MDT]

2. There will be a scheduled outage of the ROSS Production environment for a security update on May 29, 2012 beginning at 2100 hrs MDT and lasting approximately 5 hours. No additional user actions are required following the outage. [Posted 05/10/2012 at 0730 MDT]
3. **ATTENTION USERS:** When a space dash space (“–“) are copied from a Microsoft Word document and pasted into the ROSS Shipping Instructions or Special Needs fields, ICBS users are unable to view the items requested. ROSS users should avoid copying this combination into the Special Needs and Shipping Instructions fields. When this happens, an inverted question mark (¿) appears in the Shipping Instructions in ICBS where the space dash space was copied and the request cannot be viewed in ICBS.

For example, this set of Shipping Instructions in ROSS when cut/pasted from Word:

TO APACHE PASS ROAD - ENTRANCE TO FORT

appears like this in ICBS:

TO APACHE PASS ROAD § ENTRANCE TO FORT

This will result in the ICBS user being unable to view the request.

**WORK AROUND:** If an ICBS user encounters this problem, they should contact the ROSS initiator of the request to retrieve the request, remove those characters, type in the desired text or copy it from a WordPad file, and then resubmit the request with the cache. [Posted 05/07/2012 at 1545 MDT]
