# Setting Resource Availability

In the Resources list view of the work area, dispatchers can set resource availability for one or more items.

1   In IROC Portal, select the appropriate dispatch center from the **Dispatch** content selector.

2   Click the **Resources** bar on the Resources action tile to open the Resources work area on the bottom portion of your screen.

3   Click the checkbox in the **Selected** column to choose one or more resources.

4   Click one of the following **Availability** action buttons: **Make Available** or **Make Unavailable**
