

Structure of the Data Management Tool

Advanced IROC features are available in the IROC Data Management Tool (DMT), which provides additional functionality and enhanced search, data entry, and customization features not available in IROC Portal.

- 1 **Banner** – Runs across the top of every page and contains the IROC logo, the instance, and global navigation controls.
 - a **User Menu** – Opens a drop-down where you can view your user profile or log out of IROC DMT.
 - b **Connect** (🗨️) – Opens the Connect sidebar, where you can chat, work with records, and share files with other users.
 - c **Help** (🔗) – Opens the Help sidebar, where you can access the user guide and search through documentation.
 - d **System Settings** (⚙️) – Opens a screen where you can set IROC DMT system settings for your user account.
- 2 **Application Navigator** – Contains a filter navigator and the application menu, the latter of which displays a list of all applications and modules relevant to your role.

Note: The screenshot shows the **File** tab (📁) tab of the application menu, which lists all applications and modules available to you.

Tip: Click the **Favorites** tab (★) to access your saved favorites. Click the **Your History** tab (🕒) to access recently viewed items.

- 3 **Main Content Frame** – Displays information such as lists, forms, and homepages. The information changes depending on the module selected in the application navigator.

Note: The screenshot shows the Dispatch Manager dashboard in the main content frame. Dashboards allow you to view meaningful information relevant to your dispatch center.

Tip: In the dashboard view, click the tabs at the top of the main content frame for a dynamic, up-to-date overview of information related to your role.
