EDIT DATA MENU LINK

SORT SCREEN

Sort

Change the order of the data.

Sort on:

Inc GACC Org Name

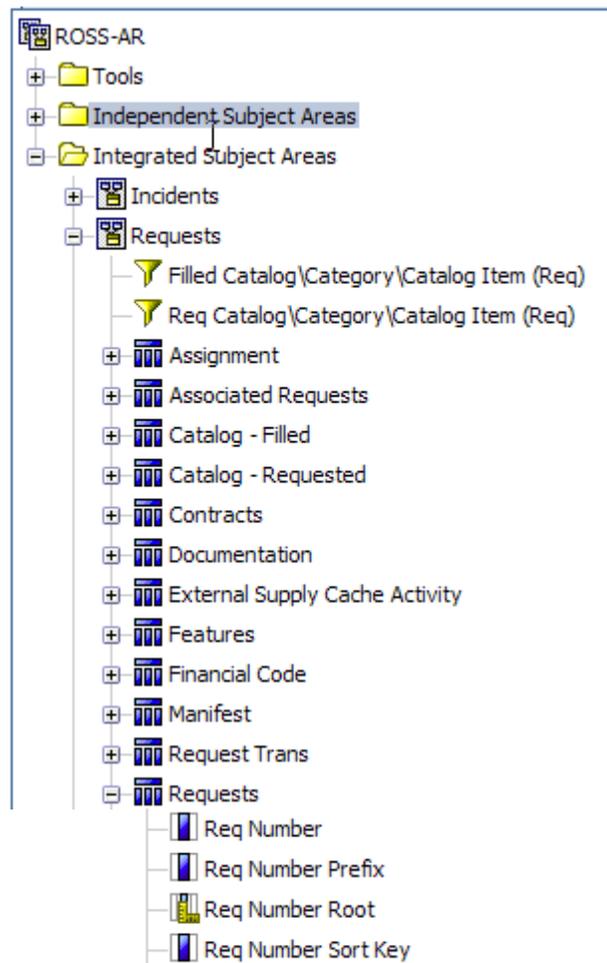

Sort order:

- Ascending (A to Z)
- Descending (Z to A)
- Don't sort

OK

Cancel

SORTING REQUEST NUMBER COLUMN

CALCULATE SCREEN

Calculate

New calculated report items appear after the last selected item. You can safely delete report items that were used to create calculations.

Operation:

- (subtraction) ▼

Order:

- Initial Date - <Date>
 <Date> - Initial Date

Date:

Dec 13, 2013 

12 : 00 : 00 AM 

Expression:

Initial Date - Dec 13, 2013
12:00:00 AM

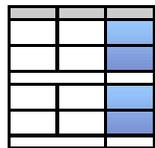

New item name:

- Use the default name

SUMMARIZE SCREEN

Summarize (advanced)

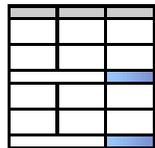

Set up totals or other summaries.

A 4x4 grid icon representing a data table. The top row is shaded gray. The second and third rows have the rightmost cell shaded blue. The bottom row is white.

Summary for cells:

None ▼

PICK VALUES FROM A LIST FILTER SCREEN

Filter (Pick values from a list) ✕

Reduce the amount of data in the report. With the Prompt option selected, the filter can be changed each [Search for values](#) [Type in values](#) time the report runs.

Filter on:
Catalog Name Prompt every time the report runs

Condition:
Show only the following ▾

Aircraft
 Crew
 Equipment
 Overhead
 Supply

[Select all](#) [Deselect all](#)

[Missing values](#) ▾
(Default)

Apply the filter to individual values in the data source
This package contains both OLAP and relational data. This setting applies to the relational data only. OLAP data will use summary filters.

OK Cancel

QCTEST

SEARCH FOR VALUES FILTER SCREEN

Filter (Search for values) ✕

Reduce the amount of data in the report. With the Prompt option selected, the filter can be changed each time the report runs. [Pick values from a list](#) [Type in values](#)
