

# Scheduling a ROSS Report View

DATE: 04/04/12

VERSION 3.0

This Quick Reference card explains how to copy, paste, and schedule a ROSS User Community Report **that already exists in Cognos as a Report View**. To determine whether the report is already saved as a Report View, look for  located next to the name of the report.

## To schedule a User Community report that exists as a Report View

1 Log in to ROSS, and then click to select **Reports** on the **Administration** menu.

2 On the **Public Folders** in Cognos, click to open the **User Community Reports** folder, and then click to open the UC sub folder(s) of your choice.

3 Click to select the **check box next to the ** that corresponds to the **report** of your choice, and then click .

4 Click the **My Folders** tab, and then click .

5 Click  that corresponds to the **report in My Folders** that you want to schedule.

6 On the **Schedule** screen under **Prompt values**, click the **Override the default values** check box, and then click the **Set** link.
