

MANAGING ORGANIZATIONS IN ROSS

10/24/19

Access to the ROSS Organizations Module is restricted in order to ensure that only approved organizations exist within ROSS and any Unit IDs adhere to the business rules for establishing unit identifiers. This will also provide correct Organization hierarchies, names, addresses, contacts, and locations within ROSS.

As a reminder, the Organization Screen can be viewed in ROSS Practice. Practice is updated quarterly and mirrors ROSS Production. Any changes made in Production are not reflected in Practice until the next update.

Changes to data within the ROSS Organizations Module (such as additions, deletions, merges, and edits) must be submitted to the ROSS Organization Data Manager on the appropriate form. The link to these forms is here: <https://famit.nwccg.gov/applications/ROSS/org>. Column headings that contain an asterisk* are required entries. The comments column on the far right side of the spreadsheet allows you to specify additional instructions and comments concerning your organization change request. Send your completed form(s) to ross_iroc_org-maint@firenet.gov

For new Unit IDs and changes or deletions of current Unit IDs, you must contact your Geographic Area Data Custodian and obtain approval by the National Data Custodian in advance of any submission to the ROSS Organization Data Manager. New Unit IDs will NOT be entered and/or old Unit IDs will NOT be removed until approved by the National Data Custodian.

Table 1, List of National and Geographic Area Data Custodians.

GACC	Custodian	Email	Phone
National Data Custodians			
USIDNIC	Rick Squires	rsquires@blm.gov	(208) 387-5655
