Query Studio 2.1
Released Nov 12, 2008.

These changes have been made:

I. New Independent Subject Areas added.

　　A. *Airports*

　　B. *Hazards*

　　C. *Locations*

　　D. *Catalog*

　　E. *Travel Plan*

II. New report added to the User Community Reports folder in a sub folder called System Extracts.

　　A. *I-Suite Report*

III. New data elements added to the Requests - Assignment query subject.

　　A. *Filled By GACC Org Name (the GACC of the Filled By Org)*

　　B. *Filled By GACC Org Unit Code*

　　C. *Res Prov Agency (the agency associated with the Res Prov Org)*

　　D. *Res Prov Agency Abbreviation*

IV. Users with existing reports may need to re-save a report.

　　Users may receive the following message. The users will need to run the report, select OK, and save or select OK and save the report. Reports utilizing cascading filters will need to be run before they are saved, all others can simply be saved.

⚠ The report must be updated because a more recent version of the package exists, or because the report contains objects, such as members and levels, that are no longer in the model.

After the report has been updated, you must save it to complete the update. As a precaution, you can keep the original report unchanged by saving this report with another name.

Do you want to update?

V. User Community reports are being updated with the exception of CAL FIRE.

This may impact the scheduled run of reports against the ROSS-AR package, but this should not be an issue once the report has been updated.

VI. Improved filters applied

Previously when filtering on the below fields all organizations not just the GACC, agency, etc. appeared. This was confusing because the name of the field was Agency, but you saw more than agency organizations. These improved filters were designed so only the expected organizations appear in the selection list when filtering.

* Indicates that the values are retrieved if they exist for the particular query subject.

Dispatch Only - List of NIC, GACC and Dispatches
Agency Only - List of Organizations attached to Agencies
Fin Code Users - List of NIC, GACC, Dispatches, Local Dispatch, National Cache, Govt non Dispatch
NIC, GACC only - List of NIC and GACC only
Host only - List of NIC, GACC, Local Dispatch, Local Cache, National Cache, Non Govt Dispatch, ICBS Cache
Vendor Only - List of Vendors that have requests assigned
Owner Only - List of NIC, GACC, Local Dispatch, Local Cache, National Cache, ICBS Cache and Vendors
Provider Only - List of NIC, GACC, Local Dispatches, Local Cache, National Cache, Govt Non Dispatch, ICBS Cache
Home Dispatch Only - List of NIC, GACC, Local Dispatches, Local Cache, National Cache and ICBS Cache
