

e-ISuite 1.2.5 Release Notes

Date: December 11, 2018
Version: e-ISuite Version 1.2.5

Description: The primary focus of this release is to address several known issues and defects in Release 1.2.4.

Additional information is also available on the e-ISuite Webpage:

<http://famit.nwcg.gov/applications/eisuite>

Important Things to Know Prior to Installing e-ISuite Site Version 1.2.5

- **YOU MUST UNINSTALL** all previous versions of e-ISuite Site.
Note: See detailed uninstall instructions on the following page
 - System Requirements
 - Windows 7 Professional, Windows 10 Professional, or Windows 2012 Server
 - No competing http Services (Tomcat7 will provide web services on server machine)
 - Browser Requirements
 - Internet Explorer 11 Officially Supported
 - Google Chrome works well and should be tried if issues are encountered with Internet Explorer 11 or Edge in Windows 10
 - Pop-up Blockers Turned Off
 - Latest Adobe Flash Installed
 - System Administrative privileges **are** required to install the application.
Note: To install, download the file and right-click on the installer file and choose either Run as Administrator or Run Elevated (USFS).
 - For more information Download the Site Installation and e-ISuite Site Setup Basics PowerPoints located on the Helpful Resources page.
<http://famit.nwcg.gov/applications/eISuite/support/resources>
 - See the Site e-ISuite Account Manager User Guide for additional information on establishing user accounts in Site and assigning roles and access to incidents.
https://famit.nwcg.gov/sites/default/files/e-ISuite_AccountManagerUserGuide.pdf
 - An Online Tutorial for the Site Account Manager is also available on the e-ISuite Webpage under Online Tutorials.

e-ISuite Site Version 1.2.5 Installation Instructions When Previous Version is Installed

Step 1: Uninstall their current version of e-ISuite. The safest way to uninstall e-ISuite is to use the following steps:

- Go to the Start Menu
- Select e-ISuite Site
- Right-click on Uninstall e-ISuite Site
- Select More and choose Open File Location which will bring up a pop-up window
- Right-click on Uninstall e-ISuite Site and choose either Run Elevated (USFS Users) or Run As Administrator (all other users)

Step 2: Users will be required to reboot their systems after they uninstall e-ISuite.

Step 3: Users should clear their browser cache before installing e-ISuite Site 1.2.5. Instructions for clearing browser cache in the four most popular browsers can be found at the following link: [Clearing Browser Caches](#). Users may proceed with the installation of e-ISuite Site 1.2.5.
