

## e-ISuite 2.1.0 Patch 2 Release Notes

**Date:** June 25, 2021  
**Version:** Apply to Site Version 2.1.0

### Description:

The purpose of Patch 2 is to correct issues found since last month's deployment. Please see release summary on the next page for detailed information. Additional information is available on the e-ISuite Webpage:

<https://famit.nwcg.gov/applications/eISuite>

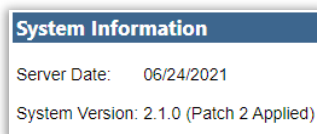

### **\*\*Important Things to Know Prior to Installing e-ISuite Site 2.1.0 Patch 2\*\***

- Google Chrome is the preferred browser.
- Only apply this patch to e-ISuite Site Version 2.1.0 Production. This patch contains all fixes addressed in Patch 1, as well as those listed below.
- Backup all databases before applying the patch.
- Close all browser windows and ensure there are no active connections to the e-ISuite Server.
- System Administrative privileges **are** required to install this patch. Users will need to follow their agency protocol for installing software.
- The version number will not be updated with this patch. A message stating "(Patch 2 Applied)" will display on the Home Page near the System Version. This will be confirmation that the patch is installed.
- Users **must** clear their browser cache after installing e-ISuite Site 2.1.0 Patch 2. Instructions for clearing the browser cache in Chrome can be found here: [Clearing Chrome Browser Cache](#).

### Steps for Installation

1. Download the Site 2.1.0 Patch 2 from the Site Downloads page on the e-ISuite Webpage: <https://famit.nwcg.gov/applications/eISuite/general/downloads>
2. Install the patch using your agency protocol for installing software.
3. Reboot your computer.
4. Clear your browser cache. See instructions above on clearing the browser cache in Google Chrome.
5. Log into e-ISuite Site.

On the Home Page next to System Version 2.1.0, verify the following appears: (Patch 2 Applied).

## e-ISuite 2.1.0 Patch 2 Release Summary

Functional Area	Summary
Cost	Corrects an issue where the cost process was starting over and creating duplicate records if the space bar was pressed while the process was running.
Cost	Corrects an issue where costs were not updating with actual time postings if there was a user updated rate.
Reference Data	Corrects an issue where an error message was appearing when editing a parent record with a Non-Standard Item Code.
Time	Corrects an issue where the invoice number was being cut off of the OF-288 invoice if the incident number exceeded a certain length.
