

Dec 2021 Security Patch Release Notes

Date: December 23, 2021
Version: Apply to Site Version 2.1.0 (Patch 2)

Description:

The purpose of this patch is to address an Apache Log4j security vulnerability. Additional information is available on the e-ISuite Webpage:

<https://famit.nwcg.gov/applications/eISuite>

****Important Things to Know Prior to Installing****

- Google Chrome is the preferred browser.
- Only apply this patch to e-ISuite Site Version 2.1.0 (Patch 2) Production. This patch is not cumulative - defect fixes from Patches 1 or 2 are not included.
- Backup all databases before applying the patch.
- Close all browser windows and ensure there are no active connections to the e-ISuite Server.
- System Administrative privileges **are** required to install this patch. Users will need to follow their agency protocol for installing software.
- The version number will not be updated with this patch. A message stating “Dec 2021 Vulnerability Patch Applied” will display on the Home Page in the top right-hand corner. This will be confirmation that the patch is installed.
- Users **must** clear their browser cache after installing this patch. Instructions for clearing the browser cache in Chrome can be found here: [Clearing Chrome Browser Cache](#).

Steps for Installation

1. Download the Site 2.1.0 Security Patch from the Site Downloads page on the e-ISuite Webpage:
<https://famit.nwcg.gov/applications/eISuite/general/downloads>
2. Install the patch using your agency protocol for installing software.
3. Reboot your computer.
4. Clear your browser cache. See instructions above on clearing the browser cache in Google Chrome.
5. Log into e-ISuite Site.

On the Home Page, verify the following appears in the top right-hand corner: (Dec 2021 Vulnerability Patch Applied).
