

Logging onto the Scan Gun

This documentation explains how to log onto a scan gun. You can use two different scan gun environments.

- **Production:** Select this environment to work in the live real-time database when performing warehouse functions.
- **Training:** Select this environment to work in a training database when performing functions that do not impact the Production database.

To Log onto the Production Environment from the Scan Gun:

1. Tap **Accept** at the Government Warning on the screen.
2. Tap **Network Login**.
3. Click the drop-down list next to **Wireless Profile** to select agency network.
4. Scan or enter your scan gun user name in **Network Username**. For example, sg1lagrande.
5. Scan or enter your scan gun password in the **Network Password**.
6. Tap **Ok**.
7. Tap **IBM/YantraM**.
8. Production auto-populates **Select Sterling Host**.
9. At **User ID**, tap behind the **Enter User ID text** and drag the stylus to the left to highlight text, then tap **BKSP** to clear the field. Scan or enter the **ICBS User ID**. For example, ccampbell.
10. Scan or enter your ICBS password in **Password**.
11. Tap **Login** on the scan gun screen.

To Log onto the Training Environment from the Scan Gun:

1. Tap **Accept** at the Government Warning on the screen.
2. Tap **Network Login**.
3. Click the drop-down list next to **Wireless Profile** to select agency network.
4. Scan or enter the scan gun user name in **Network Username**. For example, sg1lagrande.
5. Scan or enter the scan gun password in the **Network Password**.
6. Tap **OK**.
7. Tap **IBM/YantraM**.
8. Tap the drop-down list next to **Select Sterling Host**.

9. Select **Training**.
10. At **User ID**, tap behind the **Enter User ID text** and drag stylus to the left to highlight text, then hit BKSP button on scan gun to clear the field. Scan or enter your **ICBS User ID**. For example, ccampbell.
11. Scan or enter **ICBS User ID** in Password Field. When you log onto Training, you must use your ICBS username for both the **User ID** and **Password** fields.
12. Tap **Login**.
